

California Project WET is a project of the WATER EDUCATION FOUNDATION, an impartial, non-profit organization whose mission is to develop and implement education programs leading to a broader understanding of water issues and to resolution of water problems (www.watereducation.org).

Learn about the Next Generation Science Standards

Experientially learn how to implement hands-on activities into their classroom through doing the activities in the workshop
Learn new, creative teaching strategies

Address water from the widest possible angle with Project WET modules and existing regional water education programs bringing local issues into focus

Join educators in promoting the tenet of "water for all water users"

Receive a free copy of the NGSS aligned Project WET Guide 2.0 and free access to the Project WET Online portal for additional resources

FACILITATED BY:

Lynn Reimer, PhD, Director of Education Programs, UC Merced
