

PROJECT WET WORKSHOP

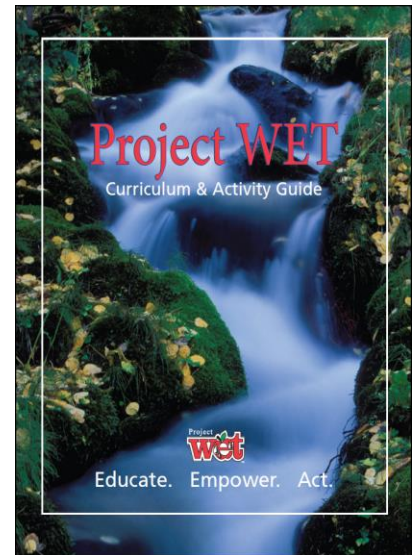

Effie Yeaw Nature Center, Carmichael

April 15, 2017

The Sacramento Municipal Utilities District invites K-12 educators to join us this Spring for a **FREE** Project WET (Water Education for Teachers) workshop at the Effie Yeaw Nature Center. This workshop will be an interdisciplinary experience in activities that will engage students in learning about watershed processes and human history along the banks of the American River, while learning about concepts and skills at the heart of **Common Core** and **Next Generation Science Standards**.

Project WET (**Water Education for Teachers**) activities are designed to supplement existing curriculum to promote the awareness, appreciation, and knowledge of water resources in a manner that is fun, hands-on and informational for learners of all ages. We will use these design features of Project WET as we explore the unique natural and cultural resources of the Sacramento region, while gaining greater awareness of the natural world available to the community at Effie Yeaw and concepts, skills and practices that help foster greater appreciation, enjoyment and stewardship of phenomena in students of all ages.

The interdisciplinary Project WET activities include real life scenarios that provide strong foundations for STEAM and Service-Learning programs. Project WET activities are designed to support and expand on existing curriculum, including the use of EEI (**Education & the Environment Initiative**) curriculum units. This is STEM learning at its best!

Each participants will receive: *a light continental breakfast, lunch, a copy of Project WET 2.0 Guide with access to over 110 Common Core and NGSS correlated activities!*

Saturday, April 15, 2017 (9:30 a.m.– 3:30 p.m.)
Effie Yeaw Nature Center
2850 San Lorenzo Way,
Carmichael, CA
