

SCIENCE OF GROUNDWATER

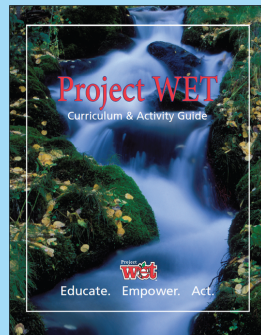

WORKSHOP & TOUR

MAY 6, 2017 | 8AM-4PM

A Day for Teachers!

Learn how to align your lessons with the Next Generation Science Standards while receiving

- ✓ Project WET Text & Online Resources
- ✓ Tour: San Gabriel Spreading Grounds
- ✓ NGSS & CC Correlations
- ✓ Workshop Certificate of Completion
- ✓ Breakfast & Lunch

Bring water topics into your classroom with a FREE workshop from the Water Replenishment District (WRD) and FREE curriculum from Project WET (Water Education for Teachers).

Explore the issue of water management in Southern California through hands-on lessons while hearing from WRD's hydro-geologist and touring the spreading grounds.

Start developing your lesson plans with collegial input, and leave with a professional development certificate of completion and a network of service learning opportunities.

REGISTER HERE BY MAY 1ST
