

OCTOBER 21 and 22, 2017 OUTDOOR EDUCATION INSTITUTE

For formal and informal educators of students ages 3-13

Join us for an informative, inspiring, fun-filled, weekend focused on educating in the great outdoors! Learn how to seamlessly integrate standards-based outdoor education into your program or lesson plans and organize educational field trips for school or community groups. Participants will complete Project Learning Tree and Project WET workshops, receive curriculum guides and other useful materials, and get further inspired with special presentations on local educational resources while staying at Whiskeytown Environmental School.

Participants may choose to attend one or both days.

Non-refundable \$65 application fee required.

Exciting professional development opportunity

Take home two guides with over 150 standards-based activities to complement your lesson plans or program

Get inspired and learn how to teach children in an outdoor environment

Common Core, STEM, Next Generation Science Standards connections
