

DWR's Sustainable Groundwater Management Program

DWR Near-term Actions

<http://water.ca.gov/groundwater/sgm/index.cfm>

- Jan. 2015: Basin Priority
- Nov. 2015: Basins in Critical Conditions of Overdraft
- Jan. 2016: Basins Boundary Regulations
- Jun. 2016: GSP & Alternative GSP Regulations
- Dec. 2016: Water Available for Replenishment
- Jan. 2017: Bulletin 118 Interim Update
- Jan. 2017: BMPs for Sustainable GW Mgmt

Basin Boundary and GSP/ALT Regulations Process

- Phases of Implementation

Internal Project Scoping

- Notify OAL
- Collection of Statewide Issues
- Coordinate with SWRCB

Draft Principles for Regulations

- Public Listening Sessions
- Input from Advisory Panels and Public

Draft Emergency Regulations

- Required Public Meetings
- Record and Evaluate Comments

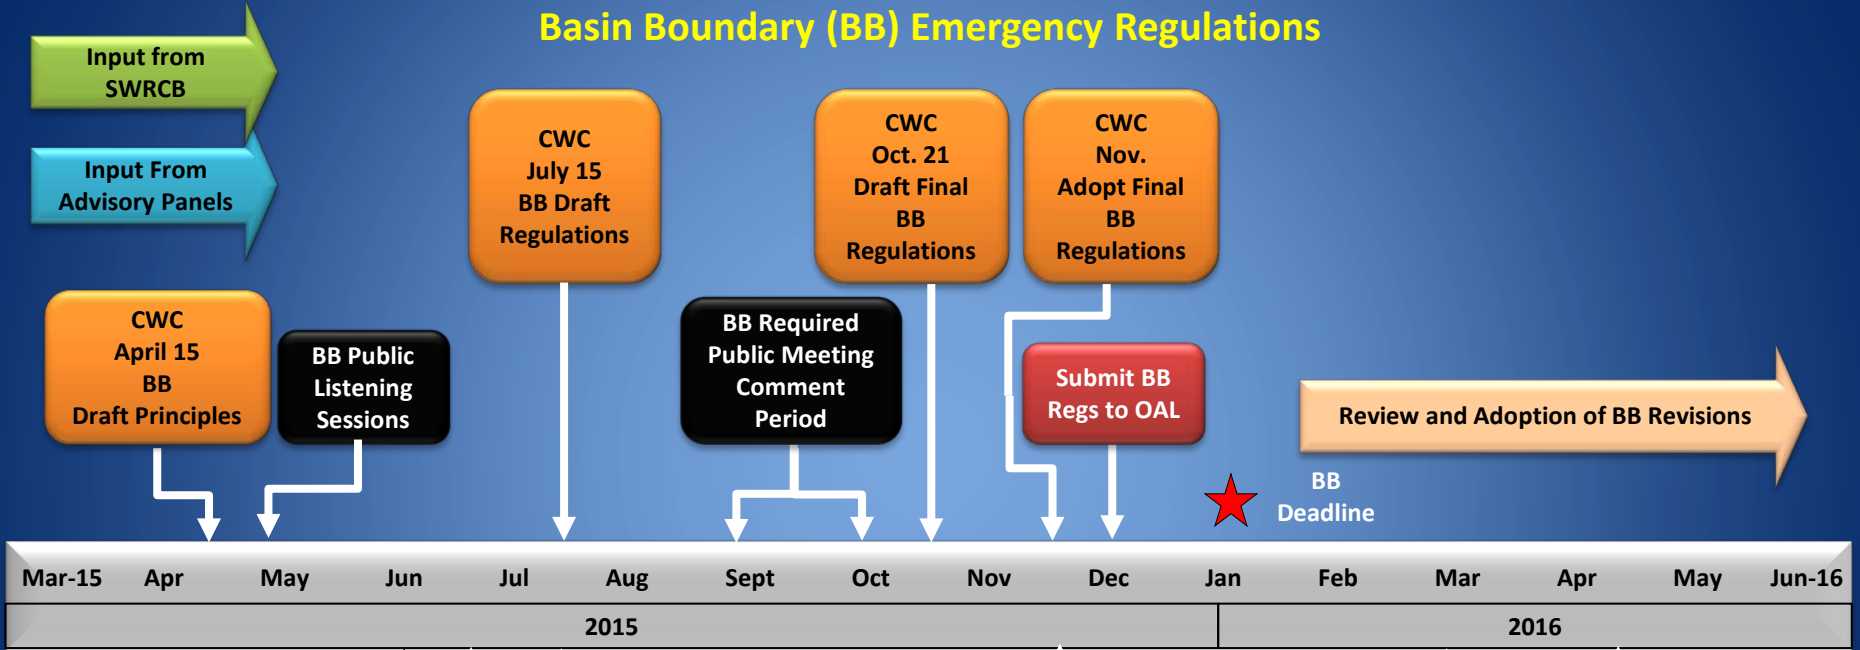

Adopt Emergency Regulations

- CWC Approval
- Noticing and Submittal to OAL

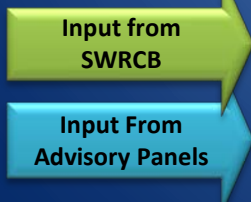

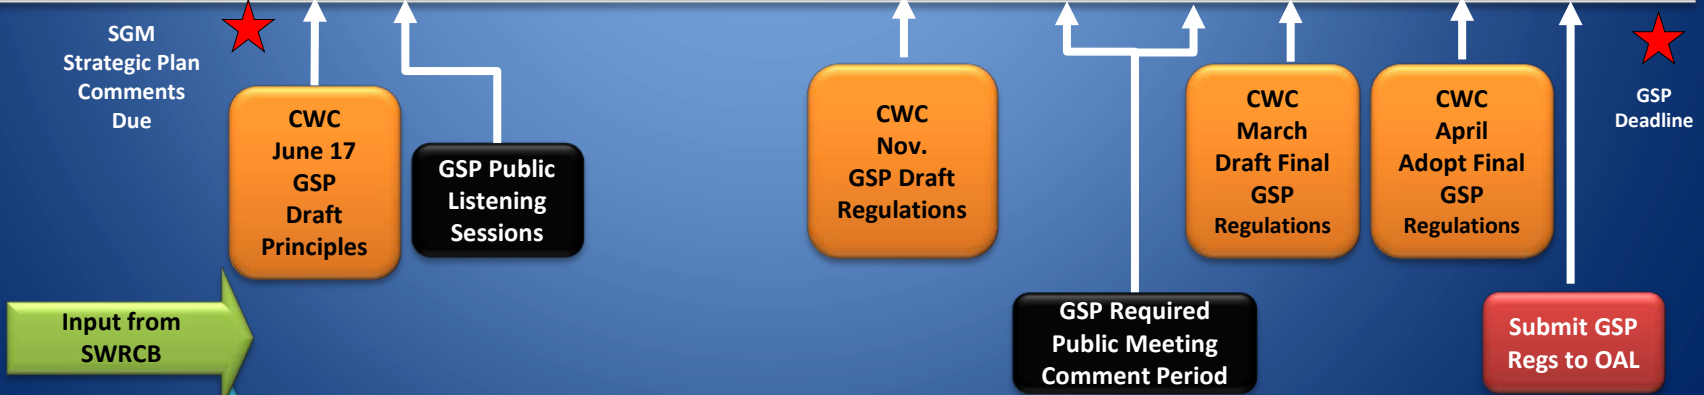

Input and Feedback from the California Water Commission

Basin Boundary and GSP/ALT Regulations Estimated Project Timeline

Basin Boundary (BB) Emergency Regulations

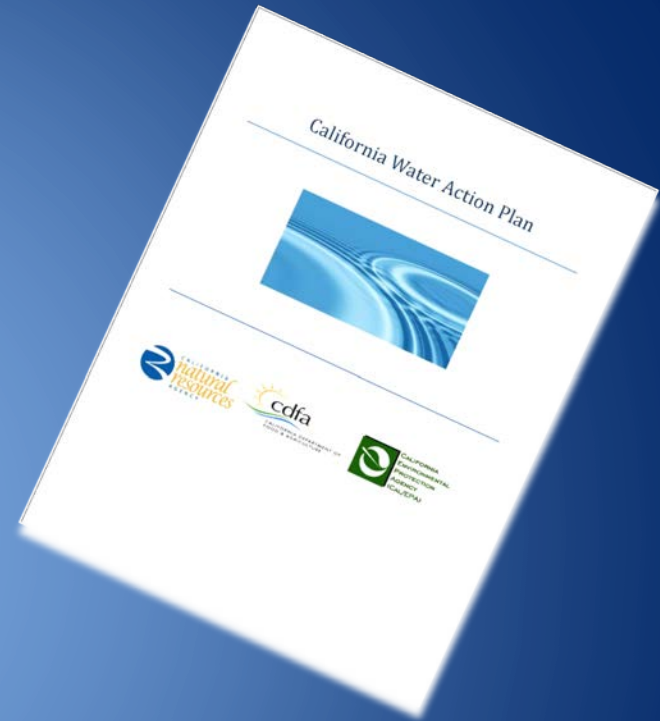

Groundwater Sustainability Plan (GSP) Emergency Regulations

Questions

When properly managed, groundwater resources will help protect communities, farms, and the environment against the impacts of prolonged dry periods and climate change.
