

Solano Water Institute for Teachers

Multi-day, field trip-based workshop

Photo: Davis Enterprise

This training will highlight the preservation of Solano County's open spaces, provide insight into the region's complex water resources, and offer first-hand experiential learning that can be passed on from teachers to students for continued exploration.

- Tour select Solano County open spaces.
- Gain an experiential understanding of the complexity of the County's open spaces and water resources.
- Participate in a 2023 Project WET training and receive innovative, locally relevant water education training centered around Next Generation Science Standards.
- Earn up to 21 hours of continuing education credit.
- Take a tour of Lake Berryessa with local water experts.
- Enjoy local artisan fare for snacks and lunches.
- Receive a \$300 stipend upon completion.

August 2-4, 2023

Participant Requirements:

- ✓ K-12 teachers and educators
- ✓ Attend 3 days (7h/day) of training (snacks and lunch included)
- ✓ Attend a single day post-training recap and present on how training was integrated into your curriculum
