

Water Education for Teachers

# Water Education Workshop

Saturday, August 29, 2020

9 am to 3 pm

## What is Project WET?

Project WET is a water-themed curriculum for K-12. It is hands-on, STEM-friendly, and multi-disciplinary. Project Wet is aligned with Common Core and Next Generation Science Standards.

## Who should attend?

Educators: formal, informal, public, private or homeschool, teacher teams, administrators, support staff and curriculum coaches.

## Where?

This class will be held online.

Riverside-Corona Resource Conservation District

For more information or to register, please contact Erin Snyder at (951) 683-7691 X 207, [Snyder@RCRCD.org](mailto:Snyder@RCRCD.org).

Please register by August 22, 2020

\*The LandUse Learning Center (LLC) is a 3-acre garden that demonstrates sustainable practices for the three main land uses of southern California: native habitats, urban areas, and agriculture. The LLC is used to empower southern Californians to practice natural resource stewardship at home, at work, and in the community.
