

Please join us this Fall!

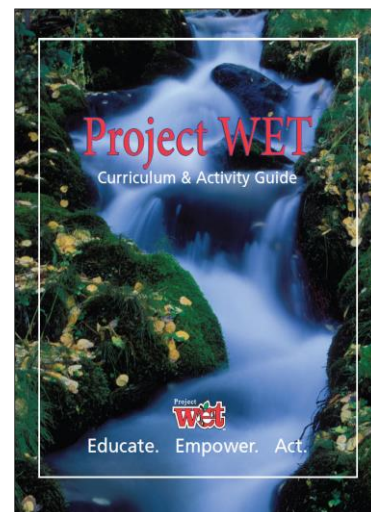

Project WET Workshop

November 17, 2018

Project WET (**Water Education for Teachers**) activities are designed to supplement existing curriculum to promote the awareness, appreciation, and knowledge of water resources in a manner that is fun, hands-on and informational for learners of all ages. Every Project WET activity was created by teachers for teachers and each incorporates nationally recognized education principles and practices.

The interdisciplinary Project WET activities are correlated to **Common Core** and **Next Generation Science Standards** and are an effective tool for integrating student knowledge of water resources with activities that include real life scenarios that provide strong foundations for STEAM and Service-Learning programs. Project WET activities are designed to support and expand on existing curriculum, including the use of EEI (**Education & the Environment Initiative**) curriculum units.

Each participant will receive: *Hands-on experience with great water conservation activities and California specific content, a copy of the Project WET Guide 2.0 which includes free access to 40 additional Project WET activities, lunch and an opportunity to receive CEU credits.*

Saturday, November 17, 2018 (9:30- 4:00)
Pleasant Hill City Hall (Large Conference Room)
100 Gregory Lane
Pleasant Hill, CA 94523
