

CALIFORNIA
project WET
 WATER EDUCATION TODAY

CALIFORNIA WATER Institute

Join us for a multi-day, immersive professional development experience designed for K-12 teachers. You'll explore local ecosystems and state water infrastructure while learning how to engage your students on these critical issues.

Expert Instructors

Learn from natural resource experts involved in water resource and aquatic ecosystem management

Interactive Sessions

Enjoy field experiences and use Project WET activities to study regional water resources and current issues

Benefits

Receive a Project WET activity guide, \$120 stipend, lunch each day and the option to purchase CEUs

Butte County
