The System Approach

1

- The Santa Ana River Watershed is a hydrologic whole

2

- Working in concert with nature is cost effective

3

- See each problem as interrelated, seek efficiencies and synergies

Create A New

1

- **OWOW is a shared Vision for the Watershed**

2

- **Breakthrough innovations**

3

- **Establish a new Water Ethic**

Collaborate Across Boundaries

1

- As citizens of the Watershed, create solutions

2

- No ONE person can do it alone

3

- **Think Big!**
