

# Empowering Educators for **CLIMATE ACTION**

## ABOUT

Join American River Conservancy's Environmental Education team for an immersive series of workshops and field experiences that will provide you with the confidence to bring climate science concepts into your classroom.

## FIELD TRIP

Explore ARC's meadow restoration project at the headwaters of the Cosumnes River where you will learn how to incorporate field learning and nature journaling into your curriculum.

## INTERACTIVE PROFESSIONAL DEVELOPMENT

Gain access to easy to use, low cost, standards aligned activities that compliment your existing curriculum.

## DATES TO KNOW

- Field Trip: **July 31<sup>st</sup>**
